Commissioner for Patents

The Amendment filed on February 29, 2008 is non-compliant because it has failed to meet the requirement of 37 CFR 1.121. In order for the amendment document to be complaint, correction of the following item(s) is required. Only the corrected section of the non-compliant amendment document must be resubmitted (in its entirety), for example the entire "Amendments to the claims" section of applicant's amendment document must be resubmitted.

In the Amendment filed on February 29, 2008, claim 31 recites " A method of triacylglycerol or triacylglycerols with uncommon fatty acids comprising" and in the previous amendment filed on September 19, 2007 claim 31 recited, " A method of producing triacylglycerol and/or triacylglycerols with uncommon fatty acids which comprising". Thus it is clear from the two sets of claims that claim 31 had more amendments that have been annotated in the amendment filed on February 29, 2008. Applicant is reminded that deletion of text in the claim can be represented with a strike through or brackets and addition of text in a claim can be represented with underlying.
